

Luis Muñoz Marín International Airport San Juan, Puerto Rico

Passenger Boarding Bridge Maintenance Services

Program Summary

After evaluating submitted proposals for best value, Aerostar Airport Holdings selected JSM Airport Services as their Passenger Boarding Bridge Maintenance provider. With its knowledgeable staff, JSM is tasked with providing 24-7 maintenance and repair services for 30 Bridges. Our deployed team is currently extending the life limit of bridges and ensure they meet OEM operation and safety standards.

JSM understood the client's capital investment and long term sustainability needs and provided a custom site specific Preventive Maintenance Program that identifies the daily, weekly, monthly, quarterly, yearly service requirements to maintain the long term value of the bridges.

Program Highlights

- ✓ Ensuring the continuance of the manufacturer's warranty of the Passenger Boarding Bridges
- ✓ Providing the client with minor and major repair support for PBBs, preconditioned air units (PCA) and ground power units (GPU) system
- ✓ Daily, weekly, monthly scheduled services, from which the operators benefit from a clean, safe, and functional PBB
- ✓ Monthly safety and functionality checks on all Bridges
- ✓ Providing 24-hour 7-day a week experienced, reliable, factory and OSHA trained technicians
- ✓ Developed a comprehensive cost and performance Proposal that met Aerostar's needs to provide superior customer satisfaction and service
